# Patient card for Methotrexate: Medication errors

Oral formulations of methotrexate-containing medicinal products with at least one indication requiring treatment once a week:

**This patient card is only intended for patients who use a methotrexate-containing medicine for indications inserted by the marketing authorization holders (mahs) in grouped terms, e.g. colitis, arthritis, psoriasis, as per indications listed in package leaflet.**

**If you use methotrexate for one of the above mentioned indications, you should only take methotrexate once a week**

Write here in full the day of the week for intake: \_\_\_\_\_

Do not take more than the prescribed dose.

Overdose could lead to serious adverse effects and may be fatal. Symptoms of overdose are e.g. sore throat, fever, mouth ulcers, diarrhea, vomiting, skin rashes, bleeding or unusual weakness.

If you think you have taken more than the prescribed dose, consult a physician immediately.

Always show this card to health care professionals not familiar with your methotrexate treatment to alert them about your once weekly use (e.g. on hospital admission, change of care).

For more information, please read the patient leaflet inserted in the package.

**You can report any problem or adverse events or request additional copies of the materials through:**
